

# *Your Machinery and Equipment Specialists*

For over 30 years, Industrial Loss Consultants (ILC) has provided technical machinery & equipment loss consulting to the Insurance, independent adjusting, and legal industries. Our consulting is solution-based, meaning ILC can inspect and determine Cause of Loss, Equipment ACV/RCV evaluations, and determine options to restore to pre-loss condition.

In addition, ILC can determine timeframes and costs as well as offer project management services which can save money on new equipment costs and reduce business interruption costs.

## **BUILDINGS**

- Conveyor systems
- Lifts
- Overhead Cranes
- Elevator Systems
- HVAC
- Telephone & Data Systems
- Boilers
- Chillers
- Fire Suppression Systems
- Alarms and Security
- Generators
- Audio/Visual
- Telecommunication
- Information Technology

## **ENERGY/POWER DISTRIBUTION**

- Turbines
- Generators
- Engines
- Boilers
- Proprietary equipment-manufacturing
- Semiconductors

## **HEAVY MACHINERY**

- Tractors, Balers
- Cranes
- Construction Equipment
- Combines
- Farm Equipment

## **MANUFACTURING**

- Welding Equipment
- Presses
- Benders
- Lathes
- CNC Milling
- Robotic Systems
- Automation Systems

## **PACKAGING & PRINTING**

- Web & Sheetfed Presses
- Auxilliary Equipment
- Bindery Equipment
- Folders
- Die Cutting
- Dryers
- Packaging Printing Presses

## **HEALTHCARE**

- Dental Equipment
- MRI Machines
- Imaging Equipment
- Scales
- Microscopes
- Measuring Devices

## **ELECTRICAL CONTROL SYSTEMS**

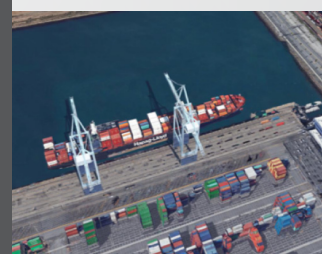

- AC/DC Drive Systems
- Operator Control Systems
- Consoles
- Control Stations
- Motors
- VFD Drives
- PLC Controllers

## **FOOD/RESTAURANT**

- Cookers
- Mixers
- Heat Tunnels
- Product Flumes
- Dispensing Equipment
- Freezers
- Coolers

## **AVIATION AND INLAND MARINE**

- Aircraft Electronic Systems
- Dynamometers
- Engine Test Stands & Support Equipment
- Ground Station Equipment
- Satellites
- Simulators
- Cargo damage
- Vessel collision damage
